Introducing Conduct™ Campaign

Smart Email Marketing for Sales Partners

Conduct is a new way for independent sellers to run email marketing campaigns to their customers and prospects. Campaigns are created for the seller or they can create new ones for themselves. Conduct™ generates invite and reminder emails, a sign up page and reports on the success of email delivery and sign-ups. Conduct users add their customers or prospects to the Contact Manager and have their lists secured by ListLock™.

Campaigns Created for You

Campaigns come complete with 4 emails, a sign-up page, that have all of the messaging and graphics you will need.

Your Lists Are Secure

Add contacts to receive emails and they are secured with Conduct's proprietary ListLock™ technology.

Reports on your Success

Reports detail the success of your emails and show you everyone that signed up for your special offer.

Branded & Customized

Add your information and graphics that will appear on all of your emails and sign-up page.
